Mission:

You ensure optimal use of Salesforce as part of the Group's strategy. You ensure also the consistency of developments and improvements and validate their impacts.

Responsibilities:

Project management

- Pilot key user and Salesforce administrator for all new functionalities,
 - o Lead tenders with subcontractors
 - o Manage budget and resources for IT Development
- Build and follows up the release plan
- Support the implementation of the tool within the group

IT processes

- Maintain Salesforce knowledge (Salesforce Trailhead):
 - o Anticipate and test new releases.
 - o You are part of the Salesforce community and aware of the roadmap orientation.
 - o Maintain an external network, you are the ambassador of Solina among CRM communities.
- Guarantee quality of data and reliable flows within the Information System:
 - o Maintain the interface contract.
 - o Have a vision of internal data model roadmap.
- Write IT specifications for IT developers:
 - o Lead design workshops with key users and managers
 - o Design conceptual data model and processes
 - o Write IT requirements or user stories
 - o Organise and perform tests.
- Implement new releases, including new features and new modules.
- Work in relationship with subcontractors and prioritize the backlogs (IT development pipeline) according to group roadmap.
- Realise and analyse Survey among users.
- Perform market intelligence on IT tools and applications (Seminar, suppliers, ...)
- Optimise licensing

Profile required / Competencies:

- Master degree in information system or equivalent.
- Strong knowledge of Salesforce
- At least 10 years' experience
- Business oriented
- Used to Agile method
- **Fluent in English**
- Frequent business travels within Europe (30%)
